

Limerick Veterinary Hospital

"Trust Your Best Friends To Us"

Limerick Veterinary Hospital wants to provide our clients with the best possible service during this outbreak of COVID-19. To help prevent the spread of this disease we will be implementing curbside service. This will enable us to provide care for your pets while limiting exposure to you, your family and our staff.

APPOINTMENTS: Please schedule appointments as you have always done. Once you arrive for your appointment please call and let us know you are in the parking lot. We will meet you at the front door and bring your pet into the hospital. The nurse will call you and get a medical history from you. While you are waiting your veterinarian will examine your pet and develop a treatment plan. The doctor will call you and discuss his/her findings and any treatment necessary. After your conversation with the doctor your pet will be returned to you and payment will be taken over the phone. While we understand that this is not the ideal way we wish to practice, it is the safest for all concerned. We also realize that some dogs will not wish to leave with a nurse and accommodations will be made for them.

PRESCRIPTIONS AND FOOD REQUESTS: Order your food or medication as you have done. You will receive a call when your order is ready to be picked up. Payment can be done at this time or once you arrive at the office. Once you are at the hospital, please call and let us know you have arrived. Your order will be brought to you. You may also order through our online pharmacy and have your order shipped directly to you. If you need more information for online service please give us a call.

HAPPY TAILS: We will continue to offer daycare and lodging services. Again we request you call from the parking lot and an attendant will meet you at the door.

We request any clients who are exhibiting symptoms such as fever, cough, shortness of breath or breathing difficulties, please refrain from coming inside the facility. We request that instead ask a friend or family member to bring your pet or reschedule the appointment entirely.

We have always taken pride in keeping our facility clean and will continue to do so in the future. We are continuing to follow the recommendations of the CDC and World Health Organization (WHO) regarding personal hygiene and cleaning policies. The good news for you is that nothing has changed at Limerick Veterinary Hospital in this respect.
